

**PERMADUR Plate Handling Systems provide
SAFE and EFFICIENT Material Handling**

The System pictured is a **PERMADUR Series 816 Plate Handling System** with 16ea. FP-4000 Lifting Magnets on a 44' Load Beam. Each of the Magnet Crossarms can be manually repositioned on the load beam. The Controller provides selectivity by Row, 8ea. The Controller also offers Permادur's Exclusive Safety Indicator Lighting System that confirms that the Magnets have attached to the load in preparation for a safe lift. This System attaches to a single hook crane via our Low Headroom Intermediate beam design. The Power Supply for this System is our "On Board" 24VDC Battery Power Supply that provides approx. 400 lifts between recharging. This Controller also offers Radio Remote ON/OFF Controls in addition to a hardwired Pendant.
